Bryan Element to Rule Party.

Committee Takes Rooms in Windy City.

Will Keep Up Propaganda for Four Years More.

Campau and Jones Not Among the Advocates of Party Reorganization.

(BT DIRECT WIRE TO THE TIMES.)

C HICAGO, Nov. 12.—(Exclusive Dispatch.) Evidence developed today that the Bryanites now in control of the Democratic party propose to continue that control if they can. The Democratic National Committee his engaged rooms in the Security Building and intends to keep up the Bryan propaganda until the next national convention.

propaganda until the next national convention.

The plan proposed is the one which prevailed during the last four years. A literary bureau is to be maintained, which will send out matter to Democratic weekly papers under the authority of the National Committee regularly, and Vice-Chairman Johnson or Secretary Walsh, or both, will be in charge. The Executive Committee of the National Committee, which is essentially a Bryan body, will supervise the character of this literary output, and see to it that nothing but radical doctrines and theories receive the seal of the National Committee. All plans for reorganization of the party will be discussed by this Literary Bureau, and good care will be taken that none receives its approval except it contemplates the retention of the existing party management.

The cardinal principle of party faith laid down will be that no Democratic except those who worked and voted for the election of Bryan are entitled to any voice in the management of the party.

RO CONTEST FOR GOVERSOR.

KENTUCKY DEMOCRATS CONTROL

LOUISVILLE (Ky.) Nov. 12.—After
a meeting of the Republican Campaign
Committee today, Chairman Lestle
Combs gave out a statement in which,
reiterating his charges of wholesale
fraud on the part of the Democrata
he said:

"The result of this election, when
thoughtfully considered, is full of hope
and without discouragement. As long
as we can show a substantial growth
of strength in fehalt of the great principles for which we were contending,
we may look forward with abiding
faith in the power of the people to govern themselves. In the contest which
is just over, there was no large silent

There will be no contest over the gubernatorial wite. There is no tribunal to which we can appeal with any hope of an impartial hearing. DETROIT (Mich.) Nov. 12.—D. J.
Campau, chairman of the State Democratic Committee, returned today from
Chicago, where he spent Sunday in
conference with Senator Jones, chairman of the National Committee. Regarding reorganisation of the party.
Campau said:

"This talk of reorganisation is amusing, particularly so for the reason that
most of it comes from those persons
who did most to defeat the party at the
late election.

who did most to defeat the party at the late election.

"While Mr. Jones and I talked about the late campaign and about the po-litical future, there was nothing said in the way of outlining plans for future campaigns."

Ashington, Nov. 12.—(Exclusive Dispatch.) As Secretary Hay regards it, the Chinese government is in a bad fix. The allied powers have demanded that eleven Chinese Princes, all supposed to have been missed up in the Boxer outrages, shall be put to death. One of these Princes is commander-in-chief of the Chinese army, and the siber is the Viceroy of that grovince in China in which the Chinese government is now located. So these two Princes alone have absolute control over the Dawager Empress and Emperor. If the latter should agree to the demand made by the allies they could not carry out their agreement, and would themselves be in danger of being put to death by the Princes.

Secretary Hay thinks this makes a pretty bad meas, and the worst is that he has reasons for beliaving the representatives of some of the foreign powers insisted upon this demand for the purpose of compelling the Chinese government, instructed Minister Congerto see if he could not get the present demands modified.

It is agreed here that all the Boxer has an ought to be beheated, but it is not looking very brishing and looking very brishing in the looking the Chinese ditation is not looking very brishing the country triffill. actual damages suffered by the powers with their citizens and subjects during the recent troubles. Notwithstanding this policy of moderation, the smount to be asked of China by all the powers wil be considerable, say \$100,000,000 or \$200,000,000. It may be possible to accept the principal in bonds, but these bonds will not find a ready market unless the interest is secured in some effective manner and it is understood, tacitly at least, that the support of the civilized powers will be given for its payment in case of default on the part of the Chinese imperial government.

It is felt both by the Chinese liberals at home and by the representatives of some of the powers that it is not wiss nor practicable to force reforms upon the whole of China with a rapidity which might lead to fresh outbreaks among the ignorant masses, like those which have recently aroused them against the foreign devils. It is hoped, however, in view of the representations which are reaching the State Department, that the Chinese imperial

Linevitch having notified the conguls at Tien-Trin of the annexation of land opposite the British and German concessions is faise. It is added that Russia is not at war with China and that there can be no question of annexing territory, which is against all Russia's ideas.

On the subject of raliponds, the Herald's correspondent's authority says: "It is true that certain roads had been damaged and that the Russians repaired and held them until a statement of expenses for repairing had been made up. That is quite fair, but a hig funs is made by the English, who, it is said, took so conspicuous a part in looting and holding a public sale in the British embassy. All the reports received here point to the conduct of the Russian troops having been ememplary in every way."

TELEGRAPHERS BEHEADED.

They also say that other executions occurred in connection with the matter."

DIFFERENCES WITH CLARK.
BY THE NEW ASSOCIATED PRESS - A.M.)
NEW YORK, Nov. 12.—The differences between Daly and W. A. Clark have attracted much attration. The trouble started years age over some water rights near Butte, which Daly wanted and which Clark had bought, forcing the other to hay a very high figure. Daly's opportunity for revenge came in 1888, when Clark was the Democratic nominee for delegate to Congress. With his immense influence at Anaconda, Daly was able to throw a heavy vote to Carter, Clark's Republican rival, which had previously teen east for the Democratic party. Montaina became a State in 1889. At the first State election, Clark was the Democratic nominee for Representa-

Domocratic nomines for Representa-tive in Congress, and W. J. Toole for Governor. The latter was elected, but Governor. The latter was elected, but Clark was defeated, supposedly owing to Daly's influence. Clark was then put forward for the United States Senatz. After a bitter contest, the Legislature was organised by both parties, each claiming to be legal. The Rebublicans named Thomas C. Power and W. F. Sanders for their Senators, while the Democrats put up Clark and Maj. Martin Maginnis. The Republicans were seated. Daly's influence defeated Clark in a second contest in 1893. In that Legislature, the Democrats had 5 votes, the Pepulisis 5 and the Republicans 32. The Daly Democrats, numbering 3, yoted solidly for ex-Congressman W. W. His return to the Senate next January is assured.

No mining property has achieved greater fame us a producer of dividends than the famous Anaconda mine. Originally bought as a silver mine, it became famous for its copper, and to it both Daly and Clark largely owe their vest fortunes. Back in the '79's two miners named Hickey from St. Lawrence county, this State, went to Montana. They selected a hill overlooking the little mining camp of Butte, and began to sink their shaft. They struck a full vein of silver, but lack of funds analy them stop work and offer to sell. Maren Daly bought the property for 135,000. He acted, it is asid, as agent for J. R. Haggin of Callifornia, who had sent him to Butte to buy some good mining property.

As the new owners ran their shafts down they opened one of the world's greatest copper mines. With silver enough to pay all expenses, leaving the copper as clear profit. Daly was superintendent and part owner of the greatest mine. He bought the adjacent properties. He founded the town of Assconda in a valley twenty-five miles listant, and located where there is an

Young Hilgard was educated at schools in Zwelbrucken, Phalsbourg and Speyer, but in October, 1852, broke off his university studies and set out for the United States, intending to join the colony of his relatives at Belleville. His father's opposition to this step made him borrow the surname of a French schoolmate at Phalsbourg, and he became Henry Villard.

Arriving at Belleville, he became a newspaper reporter and continued in the profession until 1885. During these years he served as a jegislative correspondent in Indiana and Illinois, political reporter, reporting the Lincoin-Douglas debate, the Chicago convention which nominated Lincoin, the Lincoin-Douglas debate, the Chicago correspondent. The papers he served in this period were the Cincinnati Commercial, the New York Herald, and Chicago Tribune and the New York Tribune, and part of the time he was at the head of news bureaus at Washington. Early in 1881, Villard acquired the New York Evening Post and the Nation.

In January, 1866, in Boston, he married the only daughter of William Lloyd Garrison. In 1868 he was chosen secretary of the newly-founded American Social Science Association, having its headquarters in that city, and did not flaaily relinquish the post until 1872.

It was in the inter year that, while on a visit to Europe Villard beauty in

A few years later the companies in which he was interested became so involved that there was a collapse, in which he suffered very heavily. Returning to Germany he formed new financial relations which enabled him to repair his fortune, and coming back to this country he started in once more as a capitalist.

In 1890 he purchased from Thomas M. Edison his electrical manufacturing interests, and with the Edison Lamp Company of Newark, N. J., and the Edison Works at Schenectady, N. Y. as a basis, organized the Edison General Electrical Company, of which he became president, serving in that capacity for about two years. In October, 1885, he became chairman of the Northern Pacific board of directors, but the panic of 1893 again occasioned the loss of most of his fortune and led to his withdrawal from rallway management.

Surgeon Hartley and seven men were wounded.

"Lyttleton reports that Kitchener successfully surprised the Boers during the night of November I. A mounted party of the Nineteenth Hussars and the Manchester mounted infantry, under Capt. Chetwode, mahaged to pass the Boer outposts and while the latter engaged the enemy's picket, the hussars surprised the Boers, as breing many. Chetwode and several in his command behaved with gallantry, but the hussars would probably have suffered badly as they got into Boer ground, had they not peen supported by the mounted infantry, During the moraing, artillery and infantry joined Chetwode's force and completed the Boer rout. They are said to have lost heavily.

"Smith-Dorrien's wounded, who were returned from the Boer camp, report that Commandant Prinsice and Gen. Fouries were killed and Gen. Grobelar was wounded in the recent fighting."

At the University of Chicago no preparations, either to count or photograph the Leonids have yet been made, but if tonight or tomorrow night shows a clear sky, Frof. Laves and his assistants will keep a watch for forerunners of the big shower, and if they appear they will fix the cameras for use Wednesday night.

Last November astronomers were certain that the shower of Leonids was due, but owing to some deviations in the course of the swarm of meteors, they did not arrive. There has been no calculation to prove their coming this week, but scientists don't care to be caught off their guard, and they will be on the alert for the celestat manifestation.

Prof. G. W. Hough of the astronomical department and Prof. Henry Craw of the department of physics of Northwestern University, have planned to take a number of photographs of the shower, if it be clear weather.

Trueman J. Hart was named as district court jury commissioner.

It was thought that the court sessions would continue at least two weeks, but this will not be, as all the cases for treepassing on government reserves have not yet been before the grand jury, and therefore will not come up until the next term. The few cases on the calendar will be disposed of tomorrow. The spring-term calendar is likely to be a long one. There was a general attendance of the bar at the initial session of the newly-organised Federal tribunal.

DEATH PAID THE DEBT.

CHINESE WOMAN'S CONFESSION.
IBY THE NEW ASSOCIATED PRESS.A.M.)
SAN FRANCISCO, Nov. 12.—Quock
Ah Moy, alias Ah Moey, who was arrested on Saturday night on suspicion
of being implicated in the murder of
Wong Hong, an aged shoemaker, has
confessed. She accused her lover, Luey
Dock, of being the murderer. Dock
denies it all, but the woman tells an
apparently straightforward story.
She did it because she owed Hong
troe he loaned her a long time ago.
She could not pay the debt and Dock
suggested that the best way to liquidate
it would be to kill Hong, which she
did.

SURVEY NEVER MADE.

ROTTEN WORK ON BOUNDARY. [BY DIRECT WIRE TO THE TIMES.] VANCOUVER (B. C.,) Nov. 11 .-VANCOUVER (B. C.,) Nov. 13.— [Exclusive Dispatch.] Dean, the Can-adian Governor Surveyor, who was commissioned by the government to locate stakes defining the boundary line in the Mount Baker district for 100 miles from Sumas, Wash., toward the coast and thus settle all disputes, coast and thus settle all disputes, makes the remarkable statement to the government that he could not find any stakes to denote that a survey of the boundary had ever been made. This bears out the stories told by old-timers in Yale district, that when the loint international survey commission bears out the stories told by oldtimers in Yale district, that when the
joint international survey commission
was sent to define the boundary, they
were appalled at the high mountains,
deep cliffs and dense forests fringing
the Forty-ninth parallel, and agreed
to report the survey as having been
made without actually making it.

Consequently today no one knowns
where the boundary line is, and thus
wild rumors and guesses in the press
have arisen over the disputed territory. Dean has further reported officially that in his opinion all mines of
the district were in Canadian territory, and every inch of the disputed
territory leading into the mines from
Chilliwack, where Canadian goods
were seized for duty, is Canadian territory. This, however, is not demonstrated from actual survey work.

The report further states that there
is no track slashed in the forest to
denote the course of a survey party,
and no trace of a survey having been
made. An international survey commission will define Mount Baker district boundary line from Sumas to the
coast, as soon as the snow is gone.

SANTA CLARA CONTESTS.

SAN JOSE, Nov. 12.—The Board of SAN JOSE, Nov. 12.—The Board of Supervisors today commenced the can-vass of the election returns of Santa Clara county, and covered eleven out of seventy-one precincts. The board, upon motion of attorneys representing C. W. Cobb, appointed to fill the va-cancy occasioned by the resignation of Louis O'Neal, City Justice, and Al Col, County Anditor, refused to approximate County Auditor, refused to canvass the returns for City Justice and Auditor.

After the board adjourned, Owen D. Alter the board adjourned, Owen D. Richardson, for himself, as City Justice-elect, and Martin Murphy, Auditor-elect, flied a demand for a canvasa of the returns for these two offices. In case the demand is refused tomorrow, a writ of mandate will be sued out against the board.

IBY THE NEW ASSOCIATED PRESS-A.M. ISY THE NEW ASSOCIATED PRESS—A.M.I NEW YORK, Nov. 12.—The Journal and Advertiser says in a Washington dispatch that Secretary of State Hay shall return to the Court of St. James as the Ambassador from the United States is the determination of the President. His plan is based on the desire of the present administration, the British Foreign Office and Secretary Hay himself. No Ambassador or Minister from the United States has everbeen so welcome as Hay will be at

London.
Officials say there is time enough to

Officials say there is time enough to consider what will be oftered to cheate, the present Ambasadora at London. Choate may resume his law practice in New York or he may consider that an exchange of places with Hay would not be undesirable. But Secretary Root's name has recently been mentioned for the State portfolio.

The Times says in a special from Washington that the talk about the immediate disruption of the Cabinet is without foundation. The Cabinet will stand by the President until his next inauguration. Those members who are anxious to retire will have their chance then. Nevertheless, there will be changes on March 4, though the President would be satisfied if there were not.

dent would be satisfied if there were not.

Many of the members of the present Cabinet are anxious to return to private life. The most conspicuous example is Atty-Gen. Griggs, who makes a cons..crable sacrifice by remaining. Postmaster-General Smith accepted his place solely because the President wanted him in the Cabinet. He has no great liking for the office, though he has studied its duties and discharged them conscientiously. Smith would like to leave the Postofice Department, but it is not improbable that he will be transferred to some other office so

but it is not improbable that he will be transferred to some other office so that the President may still have him in the Cabinet.

Secretaries Gage and Long have often been spoken of as anxious to retire. This leads to confident statements that they will not be in the next Cabinet. There is no certainty of that, however. The President has already induced Long to remain in the Cabinet against his wish, and may do so again.

Cabinet against his wish, and may do so again.

At one time it was reported that Secretary Hay would not stay in the Cabinet through another administration. Of late, however, and especially since the country learned to appreciate Hay's work in the department, there has been no indication that he would retire.

Secretary Root will almost certainly be in the next Cabinet. There is no man upon whom the President more thoroughly relies. He will continue to be the Secretary of War unless Hay retires, in which case Root probably will take the State Department.

Secretary Wilson will also remain in the Cabinet unless all signs fail. Nothing is known about the intention of Secretary Hitchcock.

GIGANTIC SUCCESS.

[BY THE NEW ASSOCIATED PRESS—P.M.]
PARIS, Nov. 12.—The booming of a cannon from the first story of the Effiel Tower announced that the exposition of 1900 had ceased to exist. It ended in a blaze of illumination, the final evening being celebrated by a night fête.

Official statistics show that the exposition was a gigantic success from the point of attendance, which was double that of the exposition of 1899, when 25,121,775 persons passed the gates. When the gates of the exposition of 1900 closed this evening more than 50,000,000 had passed through. The record paying day this year brought out more than 60,000 visitors as compared with a maximum of 325,377 in 1889.

miles from Sumas, Wash, toward the coast and thus settle all disputes, makes the remarkable statement to the government that he could not find any stakes to denote that a survey of the boundary had ever been made. This bears out the stories told by old-timers in Yale district, that when the joint international survey commission was sent to define the boundary, they were appalled at the high mountains, deep cliffs and dense forests fringing the Forty-ninth parallel, and agreed to report the survey as having been made without actually making it.

Consequently today no one knowns where the boundary line is, and thus wild rumors and guesses in the press have arisen over the disputed territory. Dean has further reported officially that in his opinion all mines of the district were in Canadian territory, leading into the mines from Chilliwack, where Canadian goods were seized for duty, is Canadian territory. This, however, is not demonstrated from actual survey work.

The report further states that there is no track slashed in the forest to denote the course of a survey party, and no trace of a survey having been made. An international survey commission will define Mount Baker district boundary line from Sumas to the coast, as soon as the snow is gone.

MANY RUMORS OF CHANGES IN CABINET.

SECRETARY HAY WILL RETURN TO COURT OF ST. JAMES.

Portfolio—Some of the Other Members Anxious to Retire.

NEW YORK, Nov. 12.—The Journal and Advertiser says in a Washington dispatch that Secretary of State Hay shall return to the Court of St. James as the Ambassador from the United States is the determination of the President. His plan is based on the desire of the present administration, the British Foreign Office and Secretary Hay himself. No Ambassador or Minister from the United States has ever been so welcome as Hay will be at

the present Ambassadora at London. Choate may resume his law practice in New York or he may consider that an exchange of places with Hay would not be undesirable. But Secretary Root's name has recently been mentioned for the State portfolio.

The Times says in a special from Washington that the talk about the immediate disruption of the Cabinet is without foundation. The Cabinet will stand by the President until his next inauguration. Those members who are anxious to retire will have their chance then. Nevertheless, there will be changes on March 4, though the President would be satisfied if there were not.

dent would be satisfied if there were not.

Many of the members of the present Cabinet are anxious to return to private life. The most conspicuous example is Atty.-Gen. Griggs, who makes a cons..-rable sacrifice by remaining. Postmuster-General Smith accepted his place solely because the President wanted him in the Cabinet. He has no great liking for the office, though he has studied its duties and discharged them conscientiously. Smith would like to leave the Postoffice Department, but it is not improbable that he will be transferred to some other office so that the President may still have him in the Cabinet.

Cabinet against his wish, and may do so again.

At one time it was reported that Secretary Hay would not stay in the Cabinet through another administration. Of late, however, and especially since the country learned to appreciate Hay's work in the department, there has been no indication that he would retire.

Secretary Root will almost certainly be in the next Cabinet. There is no man upon whom the President more thoroughly relies. He will continue to be the Secretary of War unless Hay retires, in which case Root probably will take the State Department.

Secretary Wilson will also remain in the Cabinet unless all signs fail. Nothing is known about the intention of Secretary Hitchcock.

YESTERDAY THE LAST DAY OF GREAT WORLD'S SHOW.

Wholesale Bailiff Sergures Mark the Closing Days—Return of American Exhibit and Commissioners

PARIS, Nov. 12.—(By Atlantic Cable.) The exposition closes today with the evening illumination. Five tickets are charged for one admission. There were few visitors in the day time, tickets lacking purchasers at a sou each. The work of removing the exhibits can begin after midnight. No vestige will be left of the great exposition, except the immense hothouses on the north bank of the Seine and the art palaces. The prefect of the Seine submitted to the Municipal Council today a scheme to demolish all the buildings on the Champs de Mars and Trocadero. The center of the groun's will be maintained in the form of gardens, for the embellishment of the city, while the wide border will be sold for building lots for the erection of mansions and hotels. PARIS, Nov. 12.—The booming of a cannon from the first story of the Eiffel Tower announced that the exposition of 1900 had ceased to exist. It ended in a blaze of illumination, the final evening being celebrated by a night fête.

Official statistics show that the exposition was a gigantic success from the point of attendance, which was double that of the exposition of 1899, when 25,121,975 persons passed the gates. When the gates of the exposition of 1900 closed this evening more than 50,000,000 had passed through. The record paying day this year brought out more than 60,000 visitors as compared with a maximum of 235,377 in 1839.

It is said that Pettigrew declared during the coming short session of Congress. It is said that Pettigrew declared during the coming short session oppose the army bill.

The necessity for the passage of the Army Reorganization Bill is plainly apparent when it is stated that the present law, under which the army was increased, expires July 1 of next year, and unless a new measure is passed the army would be reduced to its former peace-footing size. "This means that the President will be compelled to call an extra sension immediately after his inauguration. With the rebellion still on in the Philippines and the necessity for keeping a considerable force in the 480 or more garrisons there; with a small army in China, and with the necessity for garrisoning the forts and posts of this country, it will be seen the army bill is by far the most important piece of legislation to be considered at the coming sersion of Congress. REDEMPTION OF NOTES.

IBY THE NEW ASSOCIATED PRESS—P.M.)
WASHINGTON, Nov. 12.—Promptly
upon the enactment of the new financial law the divisions of the issue and
redemption therein provided for were
established, and to them were transferred the records and accounts relating to the issue and redemption of
United States notes, gold certificates
aliver certificates, and currency
certificates. Up to October 1,
1900, 232,539,884 in United States
notes and 43,594,708 in treasury notes
were redeemed in gold out of the reserve fund of \$150,000,900.
Each day the notes so redeemed were
exchanged for gold from the general
fund, so that the reserve was kept
intact in amount and character. Besides, this reserve fund the trust fund,
conflisting of gold coin, silver dollars
and builton and United States notes,
amounted on the day the act became a
law to \$722,052,283 and increased by
November 1, 1900, to \$740,955,897.

Exclusive of the reserve fund, the
available cash balance of the treasury
was greater June 30, 1900, by \$24,887,193 than at the same date in 1899, but
this gain was partly offset by a decrease of \$8,663,272 in the next ensuing
quarter. The cash assets beyond linbilities were \$49,722,017 on June 30, 1899;
\$50,327,652 on June 30, 1900, and \$41,185,190 on October 1, 1900.

As the receipts of the treasury were
greater than the needs of the govern-

silver coin, an aggregate of \$1,711,641,-935.

The operations of the treasury and its branches are conducted in increasing ratio in gold. The receipts of the fiscal year in that coin having increased \$61,80,001, and the disbursements \$560,642,128 over 1890. There is an increase in the circulation of standard silver dollars in the autumn of each year, followed by their return to the treasury a few months later. This is an incident to the movement of the crops, and to the free delivery by the treasury of such coins. The amount in circulation November 1 was \$73,470,-480.

The national bank notes presented for redemption during the year amounted to \$96,952,607, or \$71,25 per cent. of the average volume outstanding, an increase of \$8,144,306 over 1899. The expense incurred in the redemption and assortment, including \$31,767 for transportation, amounted to \$122,955, which sum will be apportioned among the banks at the rate of 1,32553 of their notes redeemed.

NEW YORK, Nov. 13.—A special to the Herald from Washington says the officials of the War Department believe the election in the United States will have a good effect in the Philippines, and will lead the more sensible Pilipines to abandon the insurrection. At the same time the officers look forward to a long period of guerrilla warfare. It is realized the independent, irresponsible life of the military free-booter has many attractions for many of the Pilipines, who would rather extent tribute at the musile of their rifles than work for their living. Even if the insurgents should be deprived of the leadership of Aguinaido, and of many of the others more influential among them, it will probably take several years and a considerable military force to eradicate all the wandering bands.

them, it will probably take several years and a considerable military force to eradicate all the wandering bands. Much is expected to be accomplished by the American troops between this time and January I, when the withdrawal of the volunteers will be actively begun. Unless Congress shall so amend the law under which the present volunteer army was enlisted as to permit volunteers to be discharged in the Philippines, and subsequently transported to the United States, it will be necessary to begin the homeward movement of the volunteers by January I, in over that all may be out

ward movement of the volunteers by January 1, in order that all may be out of the island: by June 1.

This necessity is regarded by the military authorities as most unfortunate When only two regiments of infantly and a battery of artillery were witarawn for service in China, the Filpino leaders encouraged their followers to believe that the United States was abandoning the struggle. It is feared that the withdrawal of more than 10,000 men will lead the Fillpinos to believe abandonment of the islands has begun in carness.

abandonment of the islands has begun in stariest.
Unless Gen. MacArthur's pending campaign shall be attended by very good results, and unless the effect of the elections in the United States shall be all that had been hoped, the country cannot look forward to any immediate material decrease of expenditures on account of the military and naval operations in the Philippines.

IBY THE NEW ASSOCIATED PRESS—P.M.;

NEW YORK, Nov. 12.—A meeting of
the directors of the Pacific Mail Company is to be held tomorrow at which
it is likely a president will be elected
to succeed the late C. P. Huntington.

It was stated on good authority that
the nominnee, if agreed upon tomorrow,

It was further ascertained that the recent extraordinary buying on the Stock Exchange of Pacific Mail shares was made for the Southern Pacific, and that this company now controls an absolute majority of the outstanding stock of \$20,000,000.

SHERIFF THINKS PORTER GUILTY OF MURDER

STRONG EVIDENCE TO SHOW THE NEGRO SLEW MISS FROST.

Accused Youth Will Be Taken Back to the Scene of the Crime, but Probably Be Lynched.

BY THE NEW ASSOCIATED PRESS-A.M. DENVER, Nov. 12.—Sheriff Freeman of Lincoln county, came to Denver to-day, and after a lengthy interview with Preston Porter and his two sons, negroes under arrest here, announced his belief that John Porter is the murderer of Louise Frost-at Limon. The Sheriff was with the suspected man for more than half an hour, and on coming out of the cell, said:

"I am convinced that John Porter is

"I am convinced that John Porter is the man who murdered Louise Frost, after subjecting her to the most revolting indignities. Before Porter and his father and brother left Limon Saturday, they burned a quantity of clothing and some bedding at the bunk house and left there a pair of shees, the imprints about the scene of the assault. "John Forter and his brother, Arthur, I find, served a term in the Kansas penitentiary for assault on a white girl in that State. There was a great similarity in the manner of the assault committed on the Frost girl and thatcommitted by them in Kansas."

John Porter is about 16 years of age. He quit work in the section gang on the Union Pacific Railroad early in the day on which the murder was committed, and he has not satisfactorily accounted for his whereabouts during the remainder of the day.

WILL PROBABLY BE LYNCHED.

feesed to the ownership of the shoes found in the cabin where he lived at Limon.

"These shoes," said the Sheriff, "have four nails in the soles, sticking out a considerable distance, and by this peculiar print we followed the man's trail for a mile and a haif and back, three miles in all. On the way to the scene of the crime the tracks indicated that he was proceeding leisurely. The other way he was running.

"I intend to take Porter back to Lincoln county," said the Sheriff, "but I am satisfied that I will never be able to get him across the border many yards. I am sure Lincoln county men are ready to lynch him, and that it will occur as soon as I enter the county, but nevertheless, I am going to take him along."

Sheriff Freeman is of the opinion that John Porter's father and brother had nothing to do with the crime, and they will probably be released.

Pyramid Pile Cure Cures Piles Quickiy, Pulniessly, Without Danger.
People go along for years, suffering
with piles. They try this and that and
the other thing, from carrying a buckeye to getting treatment from a physician. They obtain temporary relief,
maybe, but they are never quite cured.
A little strain in lifting, excessive fatigue, a little constipation, or a little
diarrhoea and the piles come back
They don't seem to amount to much, but
they banish alsep and appetite. No
position is comfortable. There is intense local pain and that dreadful agonizing feeling of weight in the perineum.
Maybe in the early stages some of the
many salves on sale will afford temporary relief. If the case is of long
standing there is only one speedy and
sure remedy. It is Pyramid Pile Cure.
Even in light cases it is the safest thing
to use. Other applications may cure
and may not. Pyramid Pile Cure is always certain, always reliable, always
brings comfort at once. Its prompt use
saves months of severe suffering. In
extreme cases it will save surgical operations and their attendant dangers
and discomforts. It is better than a
knife. Will cure easier, quicker and
safer. Thousands have used it. Thouands have been cured by it. The cost
is trifling compared with what it does.
The price is one dollar. Most anybody
would gladly pay ten dollars to be rid
of piles.

work on the San Pedro breakwater is progressing as favorably as possible under present conditions, and every day shows a little increase over the previous one in the amount of rock dumped. Thirty carloads were put into the breakwater yesterday as compared with twenty-five, the largest one day's record for last week.

President Enger of the California Construction Company said yesterday that it would still be thirty days before the company could use any rock from the quarry at Chatsworth Park, as that length of time will be necessary to remove the waste rock in the quarry proper. Two tunnels are being driven in the quarry at Declea, preparatory to firing a big blast about December I, which is expected to loosen enough rock to load several hundred cars.

WANTED-A POLICEMAN.

NO SCHOOL-BOND ELECTION. No action will be taken by the Cou

moned, but meantime Huber, finding collection impossible, had gone home. The next day he was arrested with difficulty on an insanity complaint and examined yesterday.

He testified that his mother died in 1835 and left her estate by will to his sister. Mrs. Childs. He immediately began a contest, but, he says, he dismissed it on promise of his sister that she would pay him \$1000; now she refuses to stand by the agreement. So Huber swears.

But Mrs. Childs is positive that there never was any such agreement and that she does not owe her brother \$1000. It appeared that the patient had merely broaded over the matter so long that he finally became desperate. He testified—os did his doctors—that he had been sick and nervous during the past year, and that whenever he got to thinking about the \$1000 matter it put him into a great rage and sometimes the excitement was almost uncontrollable. Such was his condition Thursday night. He stated that, if he could be assured that his sister never intended to pay the \$1000, he would dismiss the matter from his mind, and he believed he would then have no

Most Northerly Strike in Kern Field.

An Exciting Gas Pocket at Whittier.

Other Whittier Field Notes. Stocks on the Local Exchange Go Down.

Business on 'change yesterday was fair, but prices slid down a trifle below the closing figures on Saturday. Southern Consolidated, Westlake and Reed Crude all went down the toboggan, but not sufficiently to indicate any special unsteadiness in the market. Transactions in listed stocks were as follows:

A GREAT BLOW OF GAS.

WHITTIER, Nov. 12.—[Regular Correspondence.] It is patent to the most unobserving man that the present trend of development in the Whittier field is in an easterly direction toward Puente. More new rigs have been put up in the hills above East Whittier than in the old established fields. No large strikes have been made between the Central and the Murphy Cafion and the Union Oil Company's property, several miles east, but a number of good prospective propositions are being worked.

The Whittier Oil and Development Company has a rig up on its 200-acre plot and has found slight indications of oil in the first 100 feet. The company has tunneled into the hill and established a plant that produces sufficient water to run the drilling engine day and night. On Monday the three Hird brothers of Rediands, who are stockholders in the company, were in the city and made a visit to the well. The Murphy Oil Company has the foundation in place on the East Whitter roar for a pumping plant to supply water to its drilling engines, two of which will soon be in operation. The

foundation in place on the East Whitter roar for a pumping plant to supply water to its drilling engines, two of which will soon be in operation. The two pumping wells, one a recent strike and one a hole that has just been deepened, are producing perhaps 100 barrels a day.

The East Whittier Oil Company, even should it not strike oil in the well it is now drilling, will have the reputation of putting down the longest hole in the Whittier field. The drill is hitting the ground over 1600 feet from the surface.

The Warner Company's latest well, No. 3, is now down 176 feet. The drill has passed through 166 feet of oil sand and the company expects that 30 feet more will complete the well. The hole is cased for the entire length with no perforations. Grading has been completed for well No. 4. Well No. 2 still maintains its reputation as a great producer. During the month of October the company shipped as the product of its two wells over 4500 barrels of oil. Of this amount No. 3 produced far more than half.

The driller at the Whittier Consolidated Company's well had an exciting experience about 5 o'clock Sunday morning. The well is now down over 700 feet, and at the time there was about 600 feet of water in the hole. The drill went through a hard shell into a pocket of gas, and water, mud and tools were shot up through the casing toward the top of the hole. The floor of the derrick was completely flooded with mud, and the casing was lifted about a foot. When the flow of gas subsided and the tools dropped down the hole again the rope fell across the top of the casing and was nearly out through. It was a narow escape from losing the string.

The New Seventh Ward Cub Starts a Boom for Its Councilmanic Candidate Democrats Begin Operations.

The "Good Government Club" of the Seventh Ward, which was organized last Thursday evening, held a meeting last night at No. 510 East Fifth street, for the purpose of Isunching the candidacoy of Charles F. Vonderkuhlen for the City Council, in opposition to the regular nominees from the Seventh.

H. V. Stratton, president of the new club, ripped members of the present city government up the back in vigorous style, using very harsh words to express his opinion as to their dishonesty.

The president called upon Mr. Vonderkuhlen, who excused himself and introduced ex-Mayor Henry T. Hazard.

Mr. Hazard said he appeared there as the representative of the Committee of One Hundred. He at once took up the queetion of municipal ownership of the waterworks, and, with slight diversions, made his whole argument upon that issue. He very severely attacked the city government, and stated that his committee at every turn found itself blocked by some city official. His description of the city water supply was not calculated to create an appetite for the water furnished by the Los Angeles Water Company.

All other candidates who were present were invited to says a word for themselves, and several availed themselves of the opportunity.

A number of men signed their names to the club roll before the meeting adjourned.

RIVERA, Nov. 12.—(Regular Correspondence.) The election of McKinley and Roosevelt was ratified in style by the people of Rivera, Saturday evening, fireworks and speeches being the features. and tasteless, whereas the person who will boil the postum full fifteen minutes after the actual bubbling and boiling begins, will have a beverage that is something.

There is a point between twelve and fifteen minutes of boiling, when the character of Postum is changed, the food value is extracted and the delicious flavor which much resembles the milder and more expensive grades of Java coffee is produced.

A lady in Salem, Ores, says: "Whenever I drank coffee at night, I always passed a restless, wakeful night. Extreme nervousness and a weak stomach have followed me ever since I have been using coffee. Finally I got into such a state that my dyspepsia took the form of spasms and heart weakness. "I suffered intensely, and when a physician was called, he inquired, among other things, if I drank coffee and insisted that I leave it off. I did so and took up tea, which I found almost as bad. Finally husband brought home a package of Postum, and we tried it (strictly according to directions, for we believed is the adage that 'Children and fools judge of a thing half done.')

"The new coffee was delicious and from that day until now (which is a year) it has been our only drink at meals. My dyspepsia, spasms, etc., are a thing of the past. My husband had suffered some years with bilious head-aches and indigestion, but during the past year, on Postum Food Coffee, he has entirely recovered his health and gained much in weight. Our friends frequently comment on our Improved appearance and change in complexion." Name of writer supplied by Postum Co., Battle Creek, Mich.

SANTA MONICA.

TOWN HANGS TOGETHER.

SANTA MONICA. Nov. 12.—[Regular Correspondence.] Santa Monica is one town and will remain one. The special election resulted in victory for the no-division idea by large majorities. The question submitted was an to whether the Ocean Fark district abould be excluded from the city. In that district the vote stood eighty against division and twenty-nine in favor of it. The vote of the remainder of the city stood 281 against division to thirty in favor of it.

Capt. George W. Malim, one of the leaders of these in favor of exclusion, in commenting on the result, said: "The movement received little support from those who it was expected would furnish substantial encouragement. It has cost a good deal of time and money, but I do not consider that either has been wasted, as the agination will result in gementing the union of the North Side and the South Side."

It is probable that within a few weeks a petition will be presented to the City Trustees asking that a special election be called to decide whether Santa Monica shall be changed from a city of the sixth class to one of the fifth class. According to the municipal classification act approved March 2, 1881, a town having a population of over 3000 and not exceeding 10,000, may be made a city of the fifth class.

SERIOUS STABBING.

AZUBA, Nov. 12.—(Regular Correspondence.) A serious stabbing affair occurred last evening near the winery in the valley below town. The victim is Mariana Martinez, a young Mexican, who was in a crewd of drunken comrades all the afternoon. The Maxicans had been quarreling for some time previous to the enceunter, which may prove fital. Martinez was stabbed in the left breast with a large knite, the blow giancing downward intend of reaching the vitals as his assailant intended. Early this morning the wounded man's brother appeared before Justice Bouldin and swore out a complaint, charging Arnaldo Arviso, a Mexican of Asusa, who has been under arrest on several occasions charged with serious offenses, with the crims. Arviso was sasily located by Deputy Sheriff Remaley, and brought before Justice Bouldin. He refused to give ball and was sent to jail on the afternoon train. The prisoner will have to appear before the local court again next Wednesday for examination. From account

BIG LUMBER FIRE.

Over three million feet of lumber was destroyed this morning in the yards of the Brookings Lumber Company in the mountains eighteen miles from this city. The mill, valued at \$50,000, was saved by the heroic work of the employes. The lumber was worth \$33 per thousand feet, and was uninsured. Early this morning the fire was noticed from the city. By 9 o'clock the fiames were raging flereely, and an immense volume of smoke hung over the mountains.

The saymill plant was installed by the Highland Lumber Company in 1850, but was infrequently operated until about a year ago, when it was purchased by the Brookings Company, who, made extensive improvements, including the building of a railway several miles in length, to facilitate transporting timber to the mill.

The company made its business head-quarters at Highland. Mr. Brookings left this afternoon for the scene of the fire.

The Azusa Citrus Association began operations for the holiday season last Saturday and will prepare two carloads for immediate shipment. The truit is well colored and unusually fine and mature.

The side streets of the town have been systematically cleaned up, the sirvest superintendent having just finished removing the stones and weeds from the thoroughfares. With the sprinkler running every evening, this improvement makes the drives pretty and comfortable.

SAN DIEGO COUNTY.

FLUME COMPANY SUED.

BAN DIEGO, Nov. 12.—[Regular Correspondence.] Ranchers on the line of the San Diego Flume Company, who claim that last summer the company disposed of its grant supply of water to temporary consumers, and made them suffer with less than the quantity paid for, have brought suit against the company to prevent a like occurrence the next summer months. Twenty-four feet of water in the Cuyamaca reservoir is what the ranchers claim as sufficient for their needs. When the water reaches that level they ask the court to restrain the company from disposing indiscriminately of the supply.

UNKNOWN MAN FOUND DEAD.
BARSTOW. Nov. 12.—[Regular Correspondence.] An unknown man about 35 years of age, a foreigner, probably German, was found dead in the bunk house of Bright & Crandall's grading camp early this morning, with a bullet in his forebead, and a revolver lying across his breast. Indications point to suicide. The shot was heard by the men while eating breakfast about 5 o'clock, but no notice was taken of it at the time. His coat and shoes were off and he had probably slept in the bunk during the night. The bunk house had been vacated a day or so ago by the men removing to other quarters, and no one was in the house when the body was discovered except a drunken man, sleeping in another bunk near by.

IRRIGATION IMPROVEMENTS.

DOWNEY, Nov. 12—(Regular Correspondence.) The directors of the Arroyo Ditch and Water Company will hold a meeting Tuesday to determine whether \$10,000 additional expenditure shall be applied to the extension of flumes in the company's ditches. The company within the past year has built over seven miles of cement flumes at a cost of about \$23,000. The saving of water effected by the improvement has been great. In previous years when the supply has run through dirt ditches, the loss by seepage has wasted so much of the water that many of the irrigators received little or none. This year the quantity delivered, while not as such as might have been used profitably, has been sufficient for fair crops. The seven miles of cement conduits, which have been completed, are along the main ditches. The contemplated extensions run along the laterals and other smaller ditches so the cost per lineal mile will be smaller. The flow of water at the head of the main ditch has slightly diminished since the beginning of the period of dry seasons, but, considering the small-ness of the rainfall the volume of the supply keeps up much better than would be expected.

On the recommendation of the Finance Committee the board ordered bills paid to the amount of \$6032.22.

Superintendent of Buildings Hogan reported to the board that the wages of carpenters and painters had been raised by the unions from \$2.50 per day to 33, and asked whether he should allow demands according to the new scale. The matter was referred to the Committee on Buildings.

Members of the High School Orchestra want the board to appropriate \$100 toward paying an instructor. A request to this effect was made in a communication which set forth that the High School musicians could be utilised to furnish music on public occasions at which it is customary for the board to hire an orchestra. The sequest will be disposed of by the Committee on High School and Course of Study.

Of course, interest centers around the book sale. Tremendous selling was the rule yesterday. Crow thronged the book section from early morning until driven out by the sweepers at 6 o'clock in thronged the book section from early morning until driven out by the sweepers at 6 o'clock in the evening. It seemed impossible for book lovers to tear themselves from the books and from the price magnet which makes book buying during this sale such an extreme delight; for who does not delight buying two books for the price of one? What this store does it does well, but we have overdone the book business. We were not prepared for the great rush and crush which followed our Sunday as nouncement. Some people were disappointed in finding what they wished. Conditions are bette today—more help, larger space and familiarity with the stock will greatly assist our friends in choosing We began the sale with five carloads of books, and they average half price. The assortment include everything that might be wanted with the exception of a few titles which have been delayed on the rollroad.
